

WORKSHOP

MSCA-ITN-2014 ETN Project

“Toll-Like Receptor 4 activation and function in diseases: an integrated chemical-biology approach.”

UNIVERSITY OF MILANO-BICOCCA

Piazza della Scienza, 2

BUILDING: U3 ROOM: 2025

21 July 2015

Presentations

10.00 **“NIR and lanthanide based chromophores for two-photon bio-imaging applications”**

Olivier Maury, *Director of CNRS research*

“Chimie pour l'optique”, Laboratory of Chemistry- École normale supérieure Lyon (France)

11.00 **“High-resolution optical imaging of living cells by coherent Raman scattering microscopy”**

Professor Thomas R. Huser

Biomolecular Photonics, Department of Physics - University of Bielefeld (Germany)
