

“Glycoscience: at the interface between Chemistry and Biology”

TOLLerant Workshop

12th July 2017

**University of Milano-Bicocca
Aula Sironi – Building U4, Piazza della Scienza 4**

Organizer: Prof. Francesco Peri

*Coordinator of the TOLLerant project**

12th July 2017

Room Sironi (Aula U408), Building U4,

University of Milano-Bicocca

- 09.00 - 09.15** **Welcome address: Prof. Francesco Peri**
- 09:15 - 10:00** **Cell-Surfaced Carbohydrate-Protein Interactions and Origami Art**
Dr Shang-Cheng Hung, Ph.D. - Genomics Research Center Academia Sinica
Taipei, Taiwan
- 10:00 - 10:45** **Chemistry on Free Sugars and Stereoselective Glycosylation Reactions**
Cheng-Chung Wang Ph.D. - Institute of Chemistry, Academia Sinica. Taipei,
Taiwan
- 10.45-11.15** **Coffee break**
- 11:15 - 12:00** **Synthesis and Function of Bacterial Glycoconjugates for Regulation of
Immune System**
Atsushi Shimoyama, Ph. D., Assistant Professor - Department of Chemistry,
Graduate School of Science, Osaka University
- 12:00 - 12:45** **Challenges in Cancer Vaccine Development by Regulating Immune Responses**
Koichi Fukase, Ph. D., Professor - Department of Chemistry, Graduate School
of Science, Osaka University
- 12.45-13.00** **Closing remarks**
- 13.15** **Lunch (Speakers)**
